

CULLYS

product integration & servicing

About Us

Cullys is a leading Australian owned ISO 9001 Accredited Electrical / Electronic, Engineering and service provider operating throughout Australia, New Zealand and Asia, partnering with some of the world's leading manufacturers, supporting a wide range of systems that provide innovative turnkey solutions optimised to meet the needs of our customer requirements.

With more than 25 years of combined experience providing services to Defence, Government, Water and Sewage, Petrochemical, Mining, Construction, Energy, Communication, Commercial and Marine Industries, the company has established itself as a respected leader in the market place and has developed an extensive client base across Australia, Asia and Europe.

Located in the Australian Marine Complex, Cullys incorporates a modern showroom, training facility and a 1700 sqm fully serviced workshop. This enables Cullys to offer a complete range of sales, design, manufacturing, training and servicing solutions.

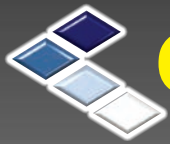

Whether you require complete installation of a new system, upgrading of an existing system or maintenance support, Cullys has the solution.

Our commitment to professionalism has seen Cullys client base continue to expand. Our flexibility allows Cullys to be able to deliver exceptional results across a complex and varied customer base. We provide the full range of communication, electrical, mechanical and process solutions across the entire project life cycle.

The combined experience of our management team and staff allows us to fully appreciate and understand our client needs; we offer viable solutions to the highest quality standards.

As an acknowledgement of our capabilities, Cullys has recently been recognised by the Defence Material Organisation for the contributions made by Cullys since 2006 in support of the Australian Defence Organisation.

What We Offer

Cullys offers a diverse range of value added services.

Cullys recognises the value of local involved management, and the importance of a positive work environment. We encourage empowerment and teamwork, and we are dedicated to continually improving the skills of our workforce. Cullys has the necessary resource capacity to meet our clients needs effectively and efficiently, yet we remain agile and provide the personal, responsive attention we believe our customers deserve.

Cullys national presence ensures efficient and effective support is provided through our strategic alliance partners.

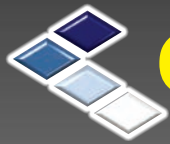

As principal contractor, Cullys offer “turnkey” solutions and provides its clients with a single point of contact for all communication and management responsibilities.

Cullys Management Systems are implemented to manage all aspects of our business. The management systems provide a framework by which the performance of the customer business activities; the Health / Safety & Environmental and Quality management activities can be monitored, controlled and continuously improved.

Cullys is committed to ensuring the Health, Safety and Welfare of all personnel within its workplace and ensuring a high standard of environmental performance from management, employees and contractors. Cullys management team accepts responsibility for the effective implementation of this policy and will provide systems, education, supervision and support to ensure a safe working environment.

Our flexibility allows Cullys to be able to deliver exceptional results across a complex and varied customer base. We provide a full range of consulting, electrical, mechanical, structural and process solutions that are applied to new projects, upgrades, expansions, renewals and operations and life cycle support phases.

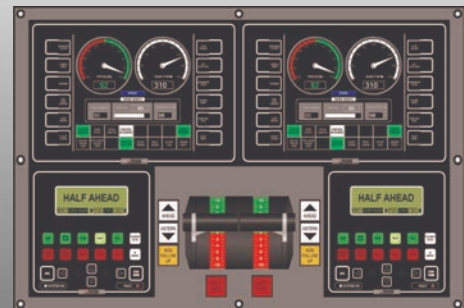

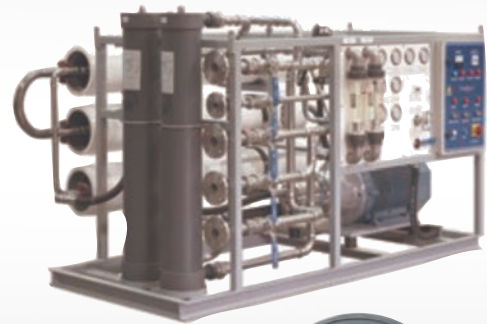

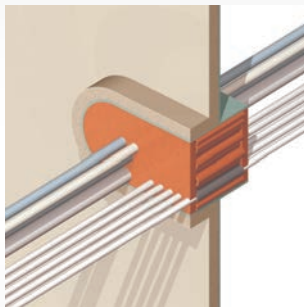

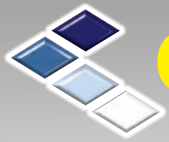

Our Products

All of Cullys products are selected because of their exceptional quality and supportability throughout the world, their purpose and features.

Cullys staff visit all their major suppliers and undergo extensive training of the equipment for the various markets we supply.

Our Vision and Values

Cullys vision is to maintain a reputation for excellence, by providing innovative solutions and high quality products and service at competitive rates, enabling us to create long and sustainable relationships with all our clients.

At CULLYS we understand that our core values define our behaviours and principals. Our responsibility to our values underpins our vision and commitment .

Safety

At Cullys, we take our duty of care for people seriously and uphold our commitment ensuring the health and safety of all our employees and customers.

Service

We take time to understand our customer's business and needs.

We are customer oriented and strive to continually exceed our clients' expectations.

Teamwork

We seek to foster a collaborative environment with our customer that allows us to enhance each other's reputation and success.

Integrity

We honour our commitments by acting openly, honestly and trustworthy.

Commitment

We are committed to providing the best possible service and product both within and outside our organisation.

WHETHER YOU REQUIRE COMPLETE INSTALLATION OF A NEW SYSTEM, UPGRADING OF AN EXISTING SYSTEM OR MAINTENANCE SUPPORT, CULLYS HAS THE SOLUTION.
