COMPANY PROFILE

Cullys is a highly reputable electrical contracting specialist - supplying, installing, integrating and commissioning a range of solutions for the commercial, defence and recreational sectors.

The company has firmly embedded relationships across Australasia, supplying products and serving clients with skilled electrical engineers across a wide range of bespoke and scheduled projects.

Cullys is proud of its 35 year track record utilising its expertise in order to plan, design, implement and manage scalable projects. In often demanding economic conditions, the business has consistently been able to deliver excellence in all aspects of quality, safety and customer service from its headquarters in Henderson, Western Australia.

As an acknowledgement of our Defence capabilities, Cullys is formally recognised by the Department of Defence for its contribution to the organisation, since 2006.

Cullys capabilities can be applied across an entire project lifecycle, including turnkey solutions. Specifically, this capability extends to;

- **Project Concepts and Designs**
- **Engineering**
- **Servicing**
- **Product Sourcing and Installation**
- **Project Management and Advisory**
- **Parts Requisition and Supply**
- **Integration**
- **Fault Diagnosis**
- **Automation and Control**

VISION & VALUES

Our vision is to be recognised as the leading Western Australian service provider for scalable electrical engineering projects in the commercial, defence and recreational sectors, supported by our range of world-class associated products.

Our business culture is supported by shared knowledge, strong team ethics and a commitment to delivering high quality project outcomes for our clients. All activities strongly adhere to an established framework of safety, quality and value.

CORE COMPETENCIES

RISK & SAFETY MANAGEMENT

As part of our commitment to achieving the principles of health and safety in our workplace, we recognise our moral and legal responsibility to provide a safe and healthy work environment for workers, contractors, customers and visitors. This commitment also extends to ensuring that risk management is an integral part of the company's approach to decision making and accountability, and that all personnel within the company are responsible for the management of risks that relate to their particular area of work.

QUALITY ASSURANCE & ACCREDITATIONS

Our quality system is based on ISO 9001: 2015 Quality Management Systems, OH&S 14001, AS/NZS: 2001 OH&S Management Systems.

Our quality objectives are to:

- Use the quality management system as a tool to achieve best practise outcomes across the organisation;
- Ensure continuous improvement.

Cullys have procedures and disciplines in place to ensure that:

- The system is effectively implemented by undertaking relevant skills training and conducting appropriate quality awareness training;
- Responsibilities for quality are established and these responsibilities are communicated clearly to all employees;
- The policies and procedures continue to be appropriate by initiating regular reviews to check its effectiveness and ongoing relevance, and the company regularly review the needs and expectations of our customers and initiate continuous improvement activities to meet those expectations.

ENVIRONMENTAL STATEMENT

“As part of our commitment to achieving the principles of responsible environmental management, sustainability and protection of the natural environment in our workplace, we recognise our moral and legal responsibility to ensure that our activities, products and services are designed to protect and enhance the environment in the communities in which we operate, and our obligations to ensuring that our operations do not place the natural environment or the local community at risk of harm”.

Contact us today to discover how our innovative electrical solutions can be customised to meet operational effectiveness on your next major project.
